

**White Earth Home Health Agency** has been a part of the CHAMP family since September, 2000. They have been a pioneer agency in many ways, both through their early use of software for documentation and, most recently, as a pilot agency for the Nurse Family Partnership.

The Nurse Family Partnership is a nationally known program which outlines a curriculum for family home visit care. White Earth Home Health has been working with the Nurse Family Partnership since 2009 and hope to sign a contract by October 1st.

We here at CHAMP would like to congratulate Alissa Hoban, Kris Ruchti, and White Earth Home Health Agency by adding them to our Excellence Club! We look forward to hearing about all their accomplishments to come!
