

Richland County Health Department

Three Month Contest Summary

June 15 to September 15, 2015

AREA OF FOCUS IN OUR COMMUNITY

- The goal of this project was to improve the vaccination rate for the PCV 13 vaccine for footcare clients 65 years of age and older. We chose this group of clients to focus on the new recommendations for adults 65 years of age and older to receive a dose of PCV 13 (pneumonia) vaccine.

SPECIFIC GOALS FOR THE COMMUNITY AROUND THE FOCUS AREA

- RN retrieved and assessed immunization records for all footcare clients prior to appointment for eligibility to receive PCV 13 vaccine. (Surveillance)
- At appointment, RN reviewed immunization record and educated all footcare clients on the importance of receiving the PCV 13 vaccine. (Teaching)
- Eligible clients that desired to receive the PCV 13 vaccine were offered the vaccine at RCHD or referred to their medical provider. (Treatment & Procedure and Case Management)
- Eligible clients that did not consent to receive the PCV 13 vaccine will be educated at future visits. (Teaching)

EXPLAIN HOW YOU USED NIGHTINGALE NOTES AND DESCRIBE HOW YOU UTILIZED:

- **ONE OMAHA SYSTEM PROBLEM TO TRACK THIS FOCUS AREA**
 - Pathway was developed for PCV 13/Prevnar vaccine with problem of Medication Regimen. We chose the problem of Medication Regimen under the health promotion modifier to increase knowledge in footcare clients about the new recommendations for PCV 13 for adults over the age of 65 years. Our goal was that all footcare clients had “basic knowledge” of vaccine purpose.
- **INTERVENTIONS USED FROM FOUR OMAHA SYSTEM CATEGORY (see pathway)**
 - Surveillance
 - Teaching
 - Case Management
 - Treatments and Procedures
- **KBS RATINGS TO TRACK THE CLIENTS**
 - KBS was documented at the beginning of the visit within the Medication Regimen problem in the Prevnar Pathway and in the activity “Ending KBS” at the end of the visit.
 - 27 of 36 footcare clients showed increased knowledge during the visit.
- **TWO REPORTS CREATED IN NIGHTINGALE NOTES TO SHOW THE RESULTS OF OUR STUDY. EXPORTED DATA FROM ONE REPORT INTO EXCEL.**
 - Report One: KBS Report Footcare/Prevnar Vaccine
 - Report Two: Footcare/Prevnar Pathway and imported data into Excel to produce graph.

Richland County Health Department Three Month Contest Summary June 15 to September 15, 2015

SUMMARY OF THREE MONTH PROJECT

- The overall goal of this project was to educate and vaccinate footcare clients with PCV 13 according to the new ACIP recommendation for adults 65 years and older. The project consisted of developing a pathway using the Omaha system framework, strategically implementing KBS documentation to analyze outcomes, and creating a bar graph report to showcase the results for our governing body.
- A total of 36 footcare clients were served in the three month period. Of the 36 clients, 13 were not eligible (36%) and 23 were eligible (64%) for the PCV 13 vaccine.
- Of the 13 not eligible clients, 12 had already received the PCV 13 vaccine and one was under the age of 65 years.
- Of the 23 clients eligible to receive the vaccine, six received the vaccine at RCHD (26%), 10 declined the vaccine (43%) and seven made an appointment to receive the vaccine.
- With documenting KBS at the beginning and ending of the footcare visit, 75% of the clients showed increased knowledge in the importance of receiving the PCV 13 vaccine.

Interventions

Please note that while you can rearrange your interventions here in any order, when you save them it will maintain proper Problem, Category, and Target grouping and order. Within the group, your Guides will be re-ordered accordingly.

Problem	Category	Target	Guide
Medication regimen	Assess (Surv)	medication administration	Retrieve immunization record to review if received PCV 13
Medication regimen	Assess (Surv)	wellness	Eligible for PCV 13 Prevnar vaccine
Medication regimen	Assess (Surv)	wellness	Non eligible-previously received PCV 13 vaccine by another agency
Medication regimen	Assess (Surv)	wellness	Not eligible for PCV 13 vaccine due to age (under 65 years)
Medication regimen	Assess (Surv)	wellness	Not eligible for vaccine-had PPSV 23 vaccine within previous 12 months
Medication regimen	Assess (Surv)	wellness	Not eligible-previously received PCV 13 vaccine by this agency
Medication regimen	Assess (Surv)	wellness	Not eligible-received PPSV 23 within past 12 months
Medication regimen	Assess (Surv)	continuity of care	Confer with clinic as needed
Medication regimen	Assess (Surv)	medication administration	Administer PCV 13 vaccine
Medication regimen	Perform (T&P)	medication administration	correct schedule
Medication regimen	Teach (TGC)	medication administration	Distribute forms #P2019 and VIS for PCV 13 dated 02/27/2013
Medication regimen	Teach (TGC)	medication administration	New guidelines/recommendations for PCV 13 vaccine
Medication regimen	Manage (CMgt)	medication administration/ordering	Client not interested/refused PCV 13 vaccine
Medication regimen	Manage (CMgt)	medication coordination/ordering	Set up future appointment to receive vaccine
